PORTLAND, OREGON

TUESDAY JULY 13 1880

PENNY GENTS

GENERAL NEWS.

BY TELEGRAPH TO THE OREGONIAN

English to New York

New York, July 1.—Wm H. English democratic nominee for vice president arrived in the city to night from Indiana accompanied by his son who acts as his secretary. He is a member of the democratic national committee and is not a member of either party. Mr. English is to be interviewed to-night but sent word to report that he had no plans laid out and did not know how long he would remain in the city.

TUESDAY EVENING, JULY 13, 1860.

THE SCHOOL QUESTION.

We print today the report of the special committee appointed a few months ago to examine the work and results of our public school system. The views so often presented through these columns heretofore are so well known that it becomes unnecessary for The Oregonian to say that it dissent strongly from portions of the committee's report. In particular it dissent from the theory which underlies the report and which forms the groundwork on which this one-sided presentation of the case is based. That theory presupposes now and hereafter there is to be no work done in the world but such work as the public school is to do; our youth to engage in that manual labor is heretofore to have little or no place among us; that a public school or seminary education is the be-all and end all of the whole body of our youth and that we need not trouble ourselves to form in them those habits of industry and acquaintance with the practical affairs of life which alone can make them citizens, mechanics, farmers and laborers—callings which three-fourths of them must accept or lead useless and improvident lives. We call the report a one-sided presentation of the case because it views the subject only on the side of school instruction as if that were all sufficient for all the objects of life. It is a report evidently prepared in accord with and to meet preconceived opinions. As such we are unable to see that it meets any of the real objections which have been urged against our system of education. For the present we meet it by referring to an article in *Scribner's* for July, in which the following points are presented:

The most thorough sanitary measures will be necessary in Portland to prevent a city season after the water recedes from the streets and cellar in the lower part of the city. Unfortunately the high water comes just in the time of the year when stagnant ponds and pools are most dangerous to the public health in their vicinity.

White Chicago is able to show a list of 502 inhabitants St. Louis can muster only 340,000. Chicago has now passed St. Louis so far that the rivalry between the two cities is virtually at an end.

The article of yesterday headed "Gen. Garfield's Brother should have run" Gen. Garfield's Brother. At all events that was the way it was written but the competitor didn't see it so.

English men Indians.

Ex Gov. Young of Ohio was asked the other day what he thought of the nomination of English of Indiana, for vice president. Well, that is a confounded thing to name him. The party has been howling about national banks and blighted bonds for years and now they take the worst national banker and most blighted bondholder in Indiana to finish their task! English is the reason that he is sterner, narrower minded and cold hearted. The soft-money people out there, and there are lots of them, hate him on account of his financial ideas. He has a right to stand up for himself and to tickle the boys with it. If he ever gives, it will be in the same proportion that he gave to the Chicago sufferers.—\$1. No, Sir, India has been in doubt for some time until this nomination but now she is sure for a republican victory.

spirit of the solid south.

Senator Lamar of Mississippi "pledged his honor" in the Cincinnati convention or that the south would be "sold" for Haskock and English. The Mississippi Star has condemned his campaign to make Garfield good in a state which would give Garfield 200,000 majority if the republicans were allowed to vote and could have their tickets counted. The Star gives to the country a sample of the true spirit of the southern democracy. It says:

Insignific social distinction against every white man who goes to the polls, and to the south the party of the republican party discredited any man who will go on or assist in making up for York Fort Hope and Emory's "Party."

Parties wishing to save time and money should partition. From Seattle to Fraser river & for further partition apply to NORTHERN TRANSPORTATION CO. Seattle W. T.

That verdict is in.

Two democratic authorities of some weight in the party are Senator Thurman and the New York World. They had something to say of the Credit-Mobilier charge when it was fresh in the minds of the people, and their common conclusion was stated in the *World* of Oct. 10, 1853 as follows:

Senator Thurman led up Gen. Garfield of Ohio in this article, and said, "Garfield has done nothing but do everything for the credit mobilier charge when it was fresh in the minds of the people, and their common conclusion was stated in the *World* of Oct. 10, 1853 as follows:

Garfield's brother should have run." Ex Gov. Young of Ohio was asked the other day what he thought of the nomination of English of Indiana, for vice president. Well, that is a confounded thing to name him. The party has been howling about national banks and blighted bonds for years and now they take the worst national banker and most blighted bondholder in Indiana to finish their task!

English is the reason that he is sterner, narrower minded and cold hearted. The soft-money people out there, and there are lots of them, hate him on account of his financial ideas. He has a right to stand up for himself and to tickle the boys with it. If he ever gives, it will be in the same proportion that he gave to the Chicago sufferers.—\$1. No, Sir, India has been in doubt for some time until this nomination but now she is sure for a republican victory.
